## FEATURES

She was extremely easy to work with. Very professional and she has an amazing voice! We had great attendance and I had people coming up to me during and after the show with only good things to say about her. I can't wait to see what she does with her career from here!

Vocally, Raquel is unique yet comfortable. As a songwriter, she is both straightforward and creative. And she has that 'thing' that you can't learn or develop. Raquel is the entire package.
